

Welcome to participate in the major international telemedicine and eHealth event in 2023!

The Finnish Telemedicine and e-Health Society will organize a conference with the overarching theme “Human oriented approach in eHealth and digital services” will bring together leaders, researchers, clinicians, managers, service providers and other professionals from around the world who are engaged in the design and within health and social care around eHealth. The conference will cover current top trending themes within eHealth and offer the latest information on international, nordic and national digital healthcare developments and solutions. The conference’s workshops offer a vantage point on the practical applications of the new solutions in healthcare. The conference includes parallel tracks in English and Finnish. The conference is organized in collaboration with Finnish Society for Telemedicine and eHealth (FSTeH) and Laurea University on Applied Sciences (Laurea).

| Track in English | Track in Finnish |
|---|--------------------------------|
| Sustainable digital services | Sustainable digital services |
| Reform of Healthcare, Social welfare and Rescue Services in Finland - year 2024 | Etäpalvelut käytännön työssä |
| Diversity of AI | Digitaaliset palvelupolut |
| European Legislation and Regulation | Haavoittuvat ryhmät |
| Data Security and Protection | Yhtenäinen terveys - OneHealth |
| Co-creation workshops | Co-creation workshops |
| Future visions of digital health and welfare | |

Workshops at Laurea Tikkurila Campus

Workshops provide a unique opportunity to explore rather targeted themes. The workshops are co-organized with companies and Laurea UAS. There are 5 workshops in total and one workshop is limited for 30 persons.

Conference will contribute 10 hours of theoretical training for Finnish physicians’, dentists’ and veterinarians’ special competence for healthcare information technology. The application to accept 10 hours of theoretical training for Finnish medical and dental specialist qualification has been submitted, too.

Standard conference fees start from 420 €, a full list is available on page 7 of this brochure.

Welcome to listen, discuss and innovate!

Outi Ahonen
President
Finnish Society of Telemedicine and eHealth
